

HENRYSPENNCER

NOISE PSYCHÉ DOOM

After its second album released in 2013 on the Italian label Trips und Traume (Zu, Rigor Mortis...) in partnership with the French label Bookmaker Records, Henryspenncer comes back with the instrumental *Hypnosis Gumbo* (drums, 2 guitars, machines and bass) freely inspired by the Swans, Unsane, Master Musician Of Bukkakes, Ennio Morricone, Neurosis and the Grails. This new album comes out simultaneously on the labels **Bookmaker Records** (fr / Pyrit, Seabuckthorn, Odawas) and **Robotic Empire** (usa / Isis, Thou, Grails, True Window, Jesu...). It has been recorded and mixed at the Holy Mountain Studio in London by Misha Hering in August 2015 and mastered at the Audio-siege Studio in Portland by Brad Boatright (YOB, Dylan Carlson, Sunn O, High On Fire, WITR, Converge). Henryspenncer performs on stage gigs full of melody and warm glow !

Hypnosis Gumbo is a collection of odd stories where feathered serpents rub shoulders with dying underwater monsters, and invisible forces struggle under incandescent comet rains. This tale takes us to the heart of voodoo ceremonies among drifting reliefs, steeped by jungle and fire. Lots of fire, fire in all its forms, central theme of the album. Originally a solo project, **Henryspenncer** operated a real change and turned into an actual band with this album.

This new incarnation turned the proper Henryspenncer's psyché/noise - doom - progressive mixture into a rawer version, maybe just more rock'n'roll.

Hypnosis Gumbo has been written and recorded by Valentin Féron and Julien Magot, now joined by Carl Boisson, Charlie Batalla (illegal Process), Thomas Kuratli (Pyrit) and Anraud Ruth (le Réveil des Tropiques) to make Henryspenncer's fire grow bigger.

ROBOTIC EMPIRE

«This powerful **Henryspenncer** looks towards a heavy psych worthy of the Grails, with fantastic riffs suspended between Led Zep 70's rock, Can's Krautrock and the stoner rhythms of Sleep. If «New Days» intro reminds of Maserati, the end of «Relic» evokes Isis in its *Red Sea* period ; that is the sound range of guitars. Exhausting but achieved, puzzling but outstanding». **New Noise, 2016.**
